

BANO HEIGHT ADJUSTABLE CISTERN / TOILET

Bano provides a 3-year warranty against manufacturing defects: i.e. if such defects appear within 3 years of installation, customers can replace the defective item with a corresponding properties.

AWARD FOR DESIGN EXCELLENCE
NORWEGIAN DESIGN COUNCIL

Bano height adjustable cistern / toilet

Bano's height-adjustable cisterns can be adjusted either manually with a crank or electrically. This lightens the carer's work load because one person can quickly and easily adjust the height of the toilet to fit the users need. The height of the toilet can be adjusted from 410 to 610 mm.

Electrical or manual

The cistern is supplied either with a manual hand crank or with electrical height adjusters. With simple steps the height of the toilet and the toilet grab bars can be adjusted. For bathrooms with external pipes an extension for the cistern must be used. See Bano interface for details. Max weight load: 500 kg

For extra support we recommend Bano back rest for the 700 mm toilet bowl.

Cistern Materials:

- Construction in galvanized steel
- Cover in ABS/ PMMA

Grab Bars Materials:

- Elokser aluminium
- Polyurethan plastic
